

# Options and opportunities for Summer School

(Credit Recovery, Original and/or Dual Credit)

Summer school opportunities for Immanuel High School students range in cost and purposes from credit recovery, original credits, and dual credits. Immanuel students, through outside institutions, have the ability to: 1) Recover credits for failed high school courses in order to meet high school graduation requirements. 2) Earn original credits for high school requirements to allow for a more flexible course schedule that upcoming school year, or to simply enrich the student's learning. 3) Earn dual credits by taking transferable college-level courses that count towards high school graduation credit requirements and allow them the opportunity to move ahead in gaining college credits as well as freeing up their course schedule for the following school year. **Communication with our counseling department is required for all summer schooling options.**

- Find more information online at each school's website.

*VERY IMPORTANT: Grades earned for dual enrollment or High School Enrichment courses will be permanently posted on students' High School and college transcripts. Students who fail DE or HSE courses may jeopardize financial aid possibilities for themselves in the future. It is highly recommended that students contact institutions of interest in order to find out how course credits will transfer, as institutions have varying guidelines for the transfer of credits- this can vary depending on the student's major and many universities will accept courses within your major as elective credit.*
